 - SAN: 1Gbit / 2Gbit ?
 - SAN – NAS – or both?
 - Virtualisation
 - Freedom Storage Thunder 9200
 - Thunder 9200 Features
 - Thunder 9200 Software Offering

Duration: ~ 30 minutes

HDS: Company Data at a Glance

- Founded 1989
- Wholly-owned subsidiary of Hitachi, Ltd. (NYSE:HIT)
- Total Employees - 2,900
- Operations in 48 countries
- Hitachi Freedom Storage™ software, hardware, and services
- Hitachi, Ltd.'s focal point for storage technology

Hitachi Data Systems EMEA

-  Hitachi Data Systems Europe Countries
-  Hitachi Data Systems Distributor Countries
-  Hitachi Data Systems Reseller Countries
-  Not Covered yet!

Wit SoundView

How do you rate the following vendors disk storage?
(on a scale of 1 to 5, with 1 being best)

Hitachi Data Systems	2.0
Compaq	2.4
EMC	2.4
IBM	2.7
Dell	2.9
HP	3.0
Storage Technologies	3.0

Source: Wit SoundView survey of Gartner conference attendees (July/01)

Product Family

- 4 - 512 Disk's
- Mainframe
- Open-System

Lightning 9960

Lightning 9910

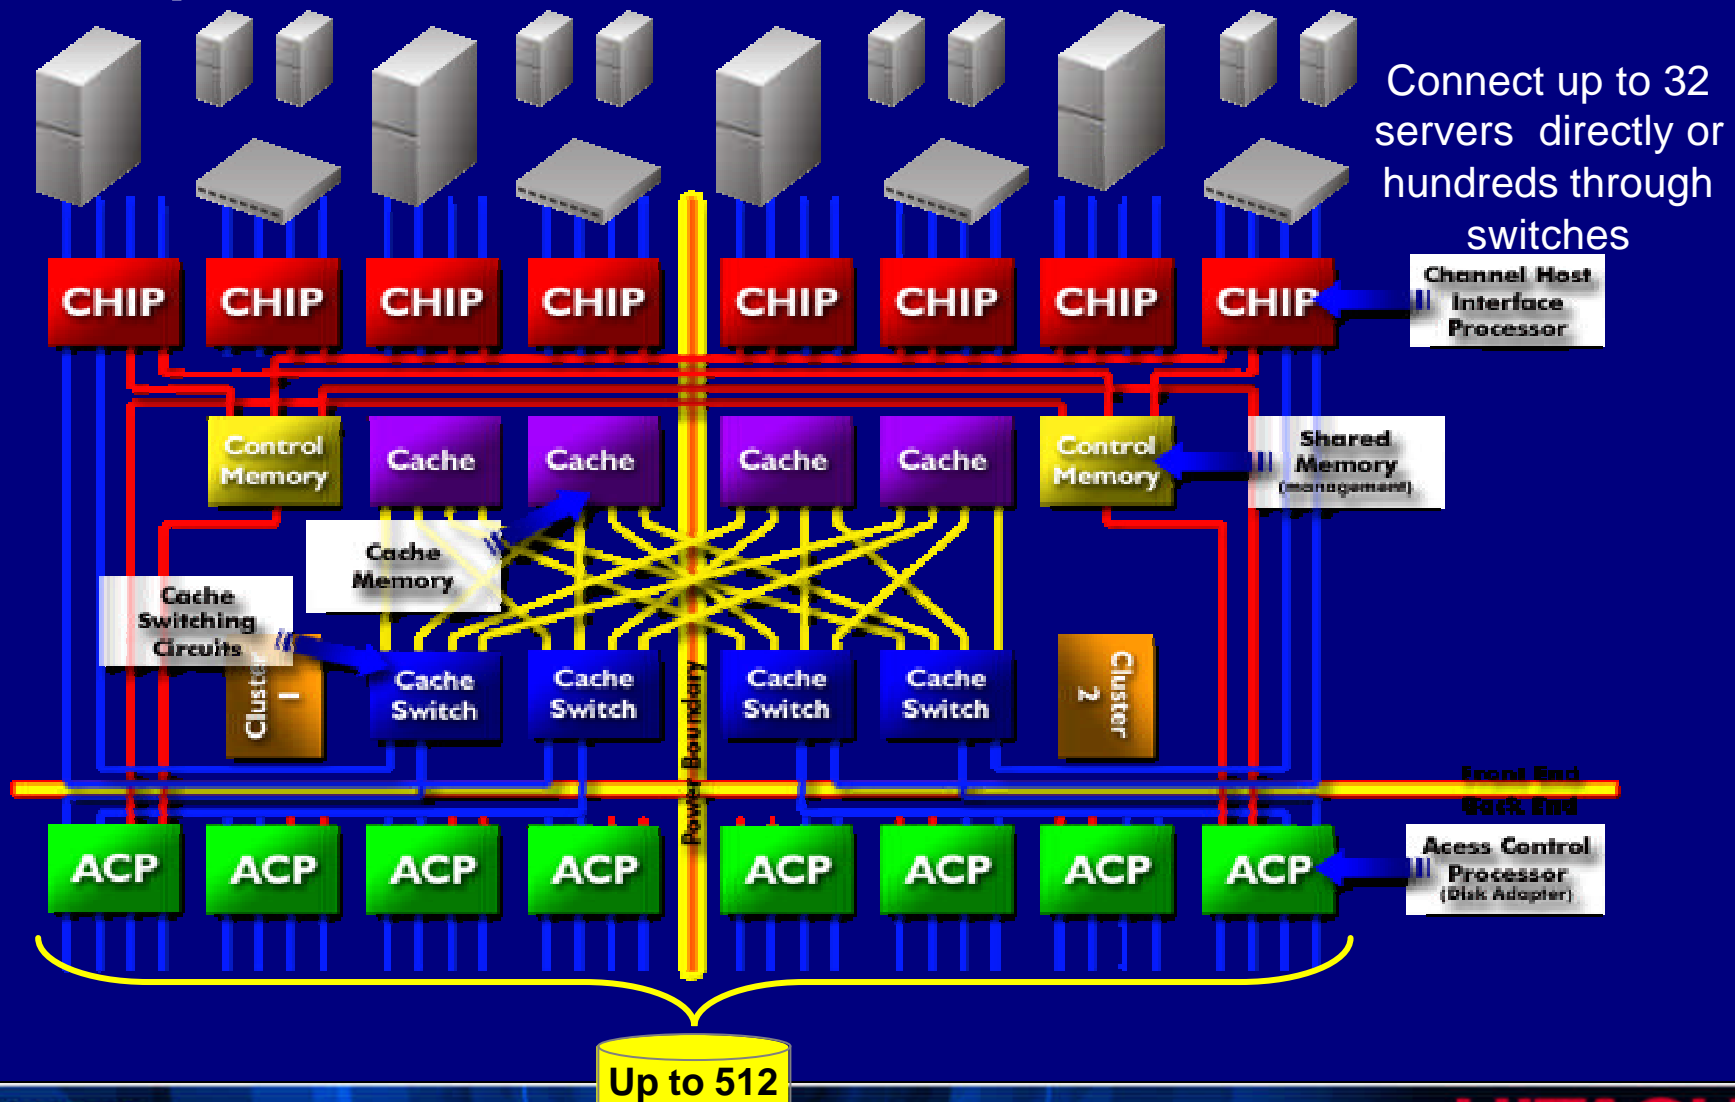

Thunder 9200

- 4 – 100 Disk's
- Open-Systems

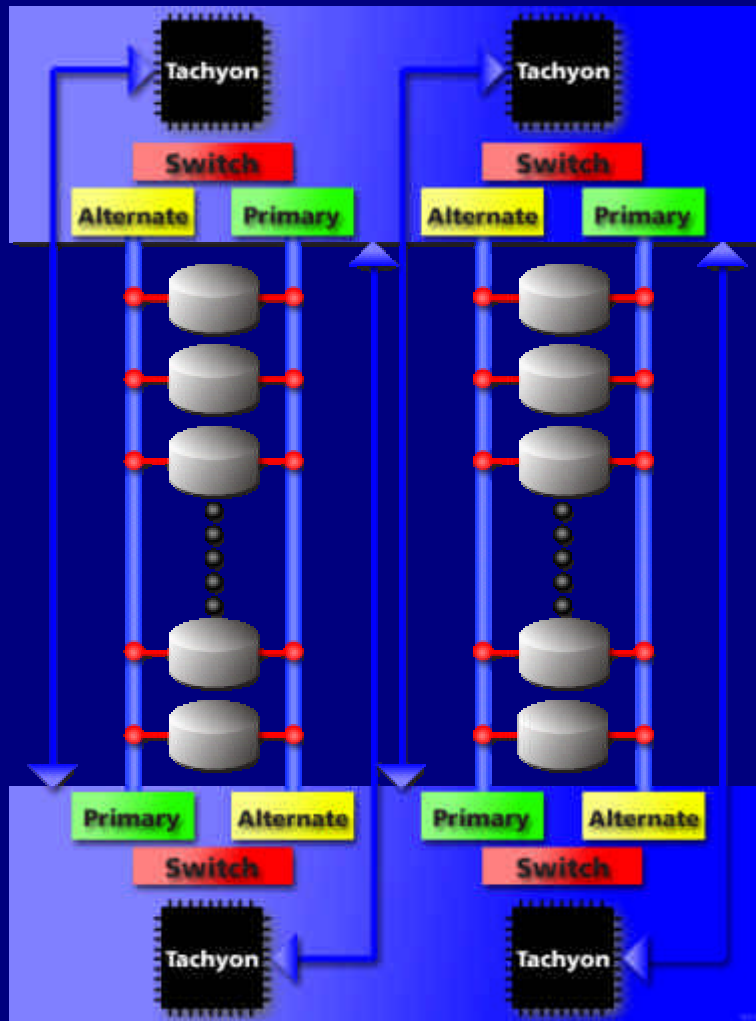

Performance

Capacity

HiStar Architecture – 9900 Enterprise Class

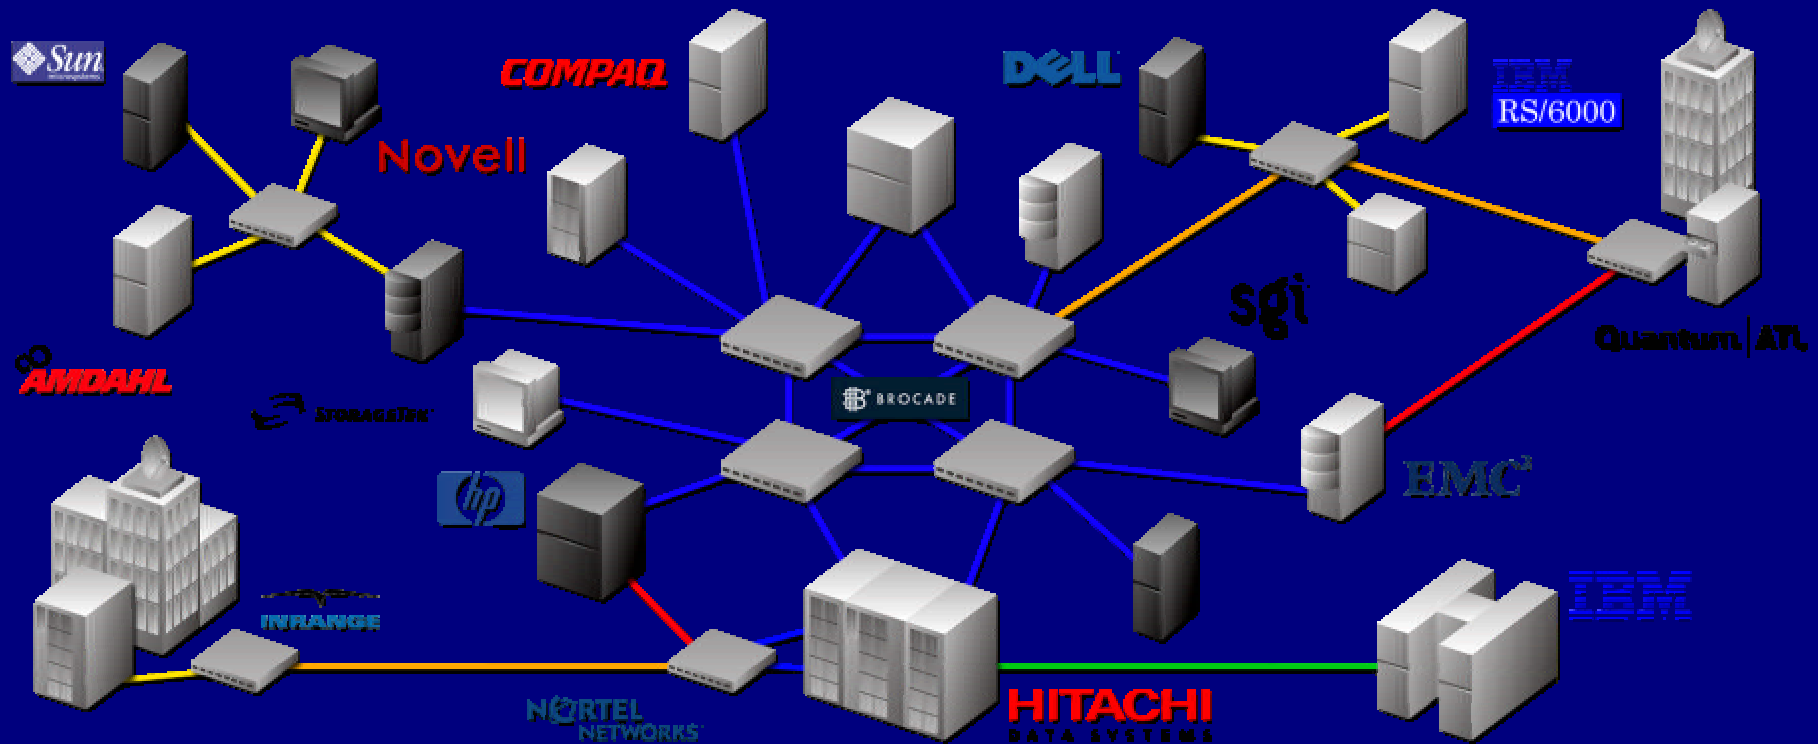

FC Architecture 9200 Midrange Class

- High Speed FC-AL backend
- Quad 100MB/s Full duplex FC loops
- 2 Tachyon chips per controllers
- Loop switching architecture
 - Primary / Alternate
 - Alternate used if Primary is busy or unavailable

The Hitachi Data Systems Vision

*Any Data, Any Computer,
Anytime, Anywhere*

1Gbit – 2Gbit ?

Backup !

Multiplexing !

Networked Storage for the Networked World

- Concept of storage as “**Utility**”
 - **Connectivity technology is irrelevant:** **availability** and **simplicity** are everything!
- Where is all the data coming from?

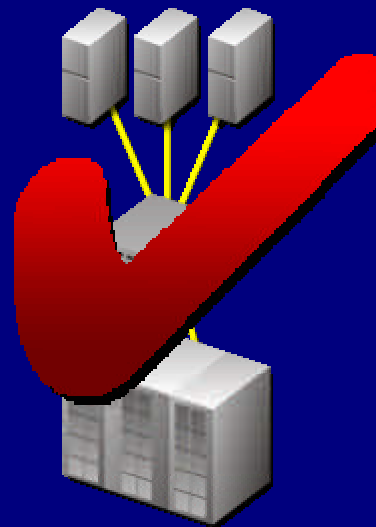

SAN or NAS?

**Direct
Connect**

SAN

NAS

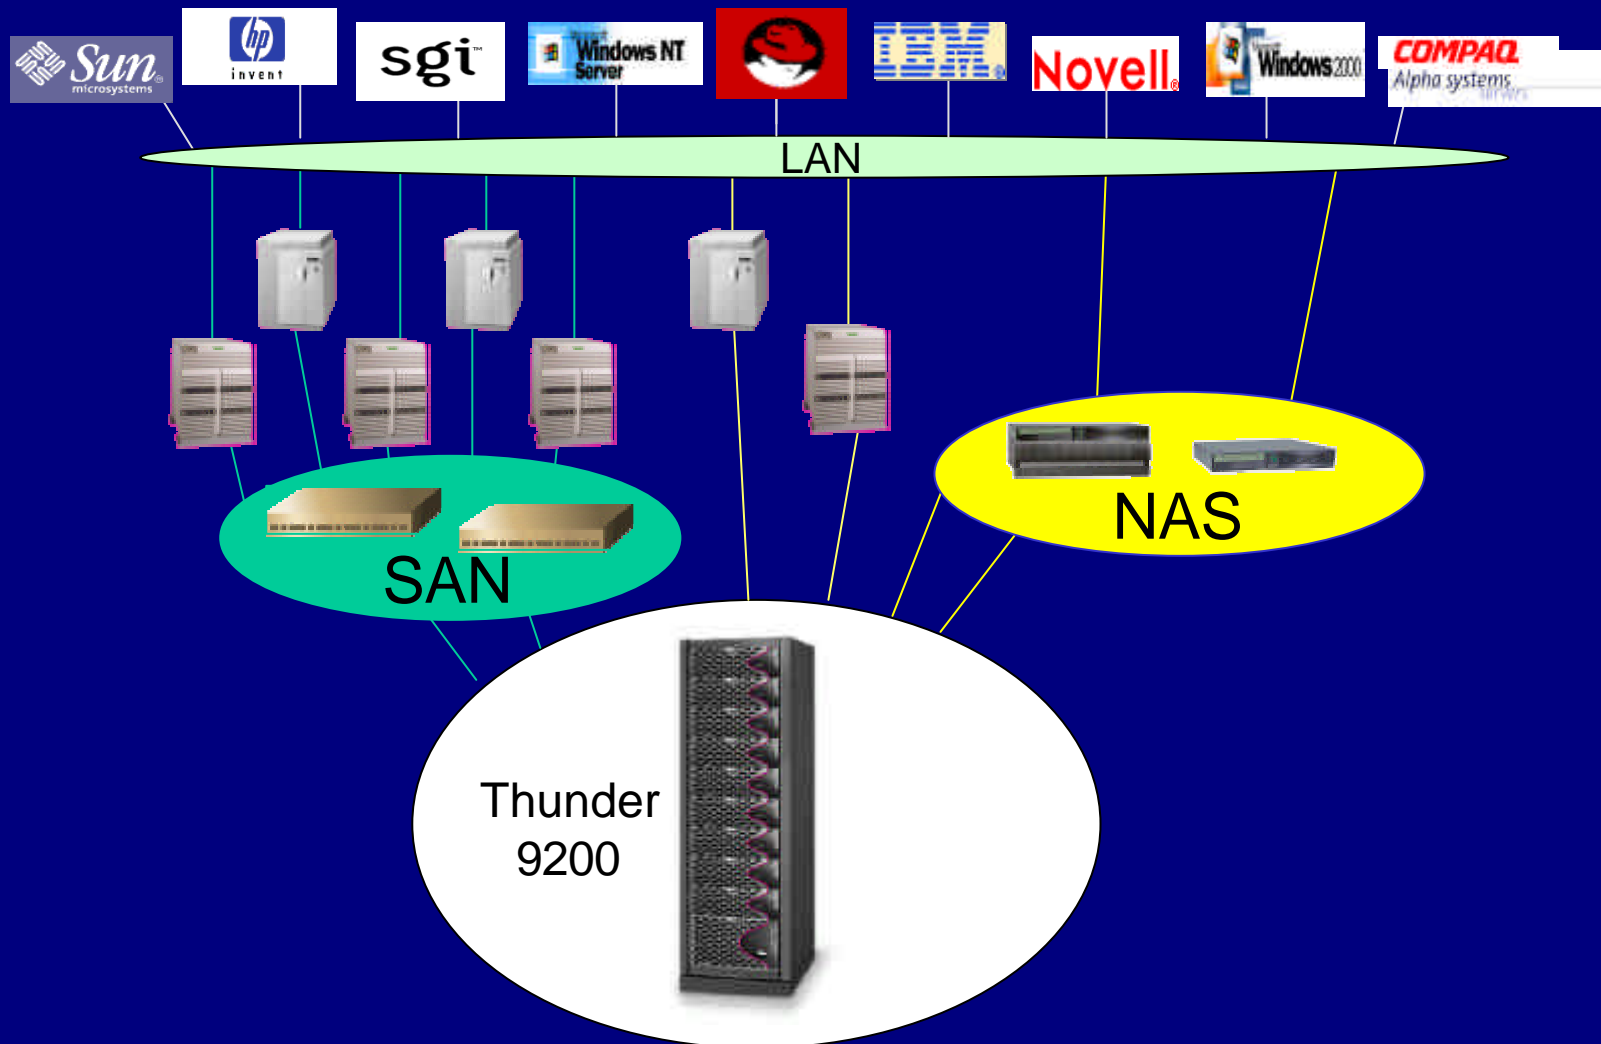

Where Does NAS Fit ?

- IT Departments
 - Consolidation of hosts with small storage requirements
 - NT storage consolidation
- Enterprise data centers
 - Storage pooling with NAS and SAN
 - Offload file services from general purpose processors
- Internet Data Centers
 - Web hosting front-ends
 - Streaming media applications

NAS

SAN + NAS : Freedom !

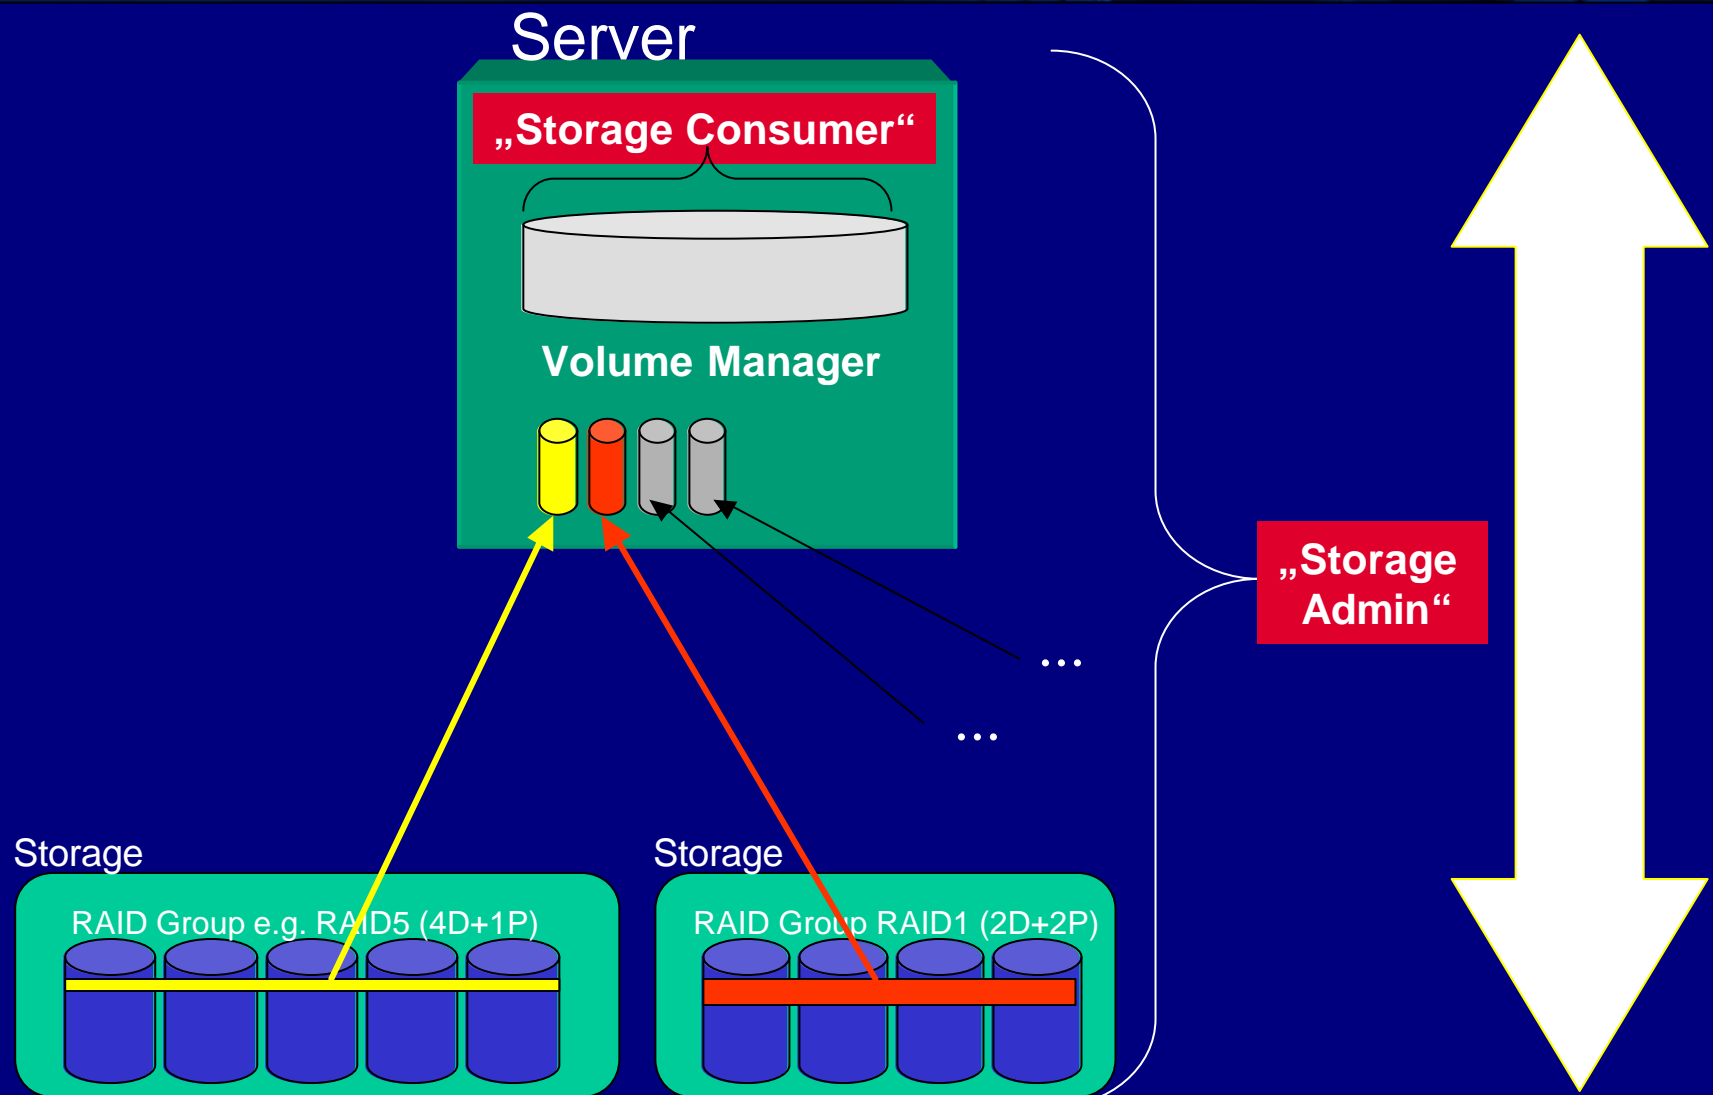

Virtualisation Strategy

- We already have virtualisation integrated in our storage solutions!! (but failed to call it that way...)
- Partnering with ISV's for truly open virtualisation solutions
 - Investment in Datacore (SAN Symphony)
 - Potential partnership with other vendors
 - Involved with the development of Veritas' virtualisation solution with Brocade

Virtualisation: So what?

Freedom Storage Thunder 9200

- Full Fibre Architecture
- Modular, building-block design for flexible configurations
- Rackmount and Deskside
- From 18GB to 18TB RAW capacity
- High speed 18GB*, 36GB*, 72GB and 180GB disk drives (*15.000RPM)
- Up to 5 global dynamic hot spares
- RAID 0, 1, 0+1, 3*, 5 intermixed
- Up to 4GB cache
- Fibre or SCSI host connectivity
- Redundant, hot-swappable components
- Online microcode upgrade, LUN expansion, LUN mapping
- Extensive software offering
- NT/2000, Netware, AIX, Solaris, HP-UX

Performance vs. Capacity

Multi platform support

NetWare

Compaq Tru64 UNIX

Heterogeneous Connectivity

Thunder 9200 Management

- Easy to use Java based GUI:
 - **Resource Manager 9200**
 - Supports multiple 9200 units
 - Supports Windows, Solaris, Irix, HP/UX
- Web enabled **monitoring** of critical components
- Internet based **Hi-Track** call home
- Remote Management via LAN / RS-232 port
- **SNMP** Compliant
 - Integration in CA Unicenter, HP Openview, Tivoli, etc.

Enterprise Copy Functions

Hardware based
copy through
Fibre Channel

- Local Volume copy
- Complete physical mirror
 - Backup applications
 - Application dev.
